Portfolio: joel3031.github.io/Portfolio-Joel | LinkedIn: linkedin.com/in/joel-biju

PROFESSIONAL SUMMARY

Full Stack Developer focused on end-to-end excellence. I design and deploy secure, high-volume web applications with clean code and a polished UI/UX. Specialized in bridging the gap between robust Java/Spring Boot server logic and modern Angular/React user interfaces to deliver enterprise solutions.

WORK EXPERIENCE

Full Stack Developer

August 2023 – Present

Interland Technologies | Kochi, Kerala

- Engineered enterprise-scale applications using Angular, React, Java Spring Boot, and Hibernate, improving system scalability and reliability by 20%.
- Designed secure RESTful APIs and microservices using Spring Boot, supporting authentication, authorization, and high-volume data operations.
- Resolved frontend/backend bottlenecks, reducing page load times by 20% and improving overall system efficiency by 25%.
- Orchestrated CI/CD automation and Docker-based deployments, enabling faster release cycles and improved testing reliability.
- Collaborated with Product and UI/UX teams to deliver client-ready features and demos, directly contributing to improved client conversion.

TECHNICAL SKILLS

- Frontend:** Angular, React, Astro, Next.js, TypeScript, JavaScript ES6, HTML5, CSS3, SASS, Bootstrap.
- Backend & DB:** Java, Spring Boot, REST APIs, Microservices, Hibernate, Node.js, PLSQL, Oracle, SQL.
- DevOps:** Git, GitHub, Docker, Maven, CI/CD.
- Testing:** Jasmine, Jest, Cypress, Playwright.
- Tools:** Figma, Scrum, Team Collaboration, Problem Solving.

PROJECTS

Payzo - HRMS Employee Management | *Angular, Java*

[Live: Payzo HRMS](#)

- Built an enterprise HRMS platform for onboarding and payroll automation using Angular and Spring Boot.
- Developed modular Angular components and scalable RESTful APIs, ensuring secure backend workflows.

Sandbox Developer Portal | *Full Stack Integration*

[Live: Sandbox Portal](#)

- Developed a refreshed UI to render Swagger API documentation, integrating backend services to provide a seamless, interactive experience for external clients.

Nexus Global Static Website | *React, Lovable.ai*

[Live: www.nexusglobal.sa](#)

- Designed and launched a production-ready corporate website using **React**, delivering responsive and visually aligned pages within tight timelines.

OnePoint - Full Stack Web App | *React, Next.js*

[Live: OnePoint App](#)

- Designing a full stack fintech web application demonstrating component-driven UI architecture, authentication work-flows, and REST API connectivity.
- GitHub:** github.com/Joel3031/One-Point

EDUCATION

B.Tech in Computer Science | Sahrdaya College of Engineering (KTU)

2023

Languages: English, Malayalam, Hindi
